TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. The following factories are being constructed by the Bukovic Construction Company of Arandjelovac, which is under the direct control of the Federal Ministry of Construction for Serbia in Belgrade.
2. Fireclay Factory (Fabrika Samota) in Arandjelovac
 - a. This factory is being constructed by 800 laborers approximately 1.5 kilometers northwest of the Arandjelovac railroad station. The only heavy equipment used in the construction is an electrically operated "Wolf" crane which has a maximum capacity of six tons. The current is obtained from an auxiliary power line from the power station at Vreoci.
 - b. There has been no equipment or machinery installed as yet and it is doubtful whether the factory will be completed by the end of 1950. The factory will provide employment for 800 to 1,000 workers and will produce "Samot" fireproof bricks and tiles.
 - c. The equipment in the factory will be electrically operated and the current will be supplied by the factory's own generating equipment.
3. Electro-Porcelain Factory - Arandjelovac
 - a. The construction of this factory, on which 1,500 workers are employed, began in 1946 and is due for completion by the end of 1950. The factory is located in the Katipolje area.
 - b. All the construction machinery is electrically operated and the current is obtained from the auxiliary power line from Vreoci.
 - c. No equipment or machinery has been installed as yet. When completed, the factory will employ 1,000 to 1,500 workers and will manufacture all types of porcelain electrical fittings, including insulators.
4. The Workers' Permanent Housing Estate is also being built by the Bukovic Construction Company to provide homes for the workers employed in both factories.
